

Invest in Your Future !

The juwi group, with an annual revenue of approximately 900 million US-Dollars and more than 700 employees worldwide, ranks among the leading companies in the field of renewable energies in Germany. Since 1996 we have planned, projected, funded and operated sites for the use of regenerative energies-wind, solar and bio-energy. In order to realize our vision of sustainable energy supply we operate globally.

**For the enforcement of our US team
at our office in Lawrence, KS we offer the position of**
